

# INTERMEDIATE iOS

Dates: July 5–July 8  
Days: TUE - FRI  
Times: 8:45 am–10:15 am  
Classroom: ENGR 106

Course Instructor: Nathan Blaylock  
Course Instructor Email: ngblaylock@gmail.com  
Office Hours: available upon request

## Introduction:

Welcome to Intermediate iOS. Technology is constantly evolving. One of these dramatic evolving technologies is mobile technology, whether it be a tablet, phone, laptop, or others. In this class we will be specifically talking about Apple's iPhone and iPad. We will go over some basics of iOS, but mostly we will look at the more intermediate side of using an iOS device.

*\*\*Since all technology has a shelf life not all features will be available on all devices. The older the device, the least amount of features that will be available. It is recommended that you have either an iPhone 4s or above and/or iPad 2 or above.*

## How to get the most out of this class (not rules):

1. Come prepared! This includes being **1. Correctly connected to the Internet (Wi-Fi)** and **2. Know your apple id and password** before coming to class. Please refer to the handout on how to achieve this.
2. Follow the structure of the class, which will begin with a lecture, followed by hands on projects (given time constraints). If you have questions about your device during class time, make sure that it is relevant to what we are discussing. Any other questions will be open to ask at the end of class.
3. During the lecture, please pay attention to the lecture and not your device.
4. **Get individual help from the YETC Technology Support in EDUC 170 8am–5pm, or from the USU Help Desk.**

## Rules:

If you choose to use your device during class, **please make sure the sound is off.**

**Be courteous** of everyone around you, and do not speak out of turn. It distracts others from getting the most they can out of the class time.

## Overview:

### **Tuesday:** iCloud

- Cloud Storage
- iCloud with Safari

### **Wednesday:** Productivity

- Notes, Calendars, Mail, and Reminders Apps

---

### **Thursday:** Photos and Maps

- Camera and Photos App
- Maps app

### **Friday:** Sharing and Student Choice

- Find my iPhone, Airdrop, Airplay
- Anything else that students want to address.
